EDUCATION

Paris Dauphine University - PSL 2026
MSc in Economics & Financial Engenieering - Major in Quantitative Finance

Relevant courses: Stochastic Calculus, Derivatives, Econometrics, Machine Learning, Quantitative Portfolio Management, Structured Product in Python, Object-Oriented Programming.

Current GPA: 3.9/4.0

PROFESSIONAL EXPERIENCE

HSBC Continental Europe Sep 2025 - Feb 2026
Repo Trader - Incoming Off-Cycle Intern *Paris, France*
· Expected to manage money market deposits: pricing clients' requests and hedged rates and FX risks.
· Will occasionally back up traders during their absence (repo book, deposits, FX swaps).
· Will contribute to designing and improving Python tools for automation.

Crédit Agricole CIB Oct 2024 - March 2025
European Government Bonds Trader - Off-Cycle Intern *Paris, France*
· Redesigned the desk's architecture by replacing Excel spreadsheets with a unified Streamlit dashboard.
· Built a risk spreadsheet to compute the Euro-Future Strip Hedge for short traders.
· Developed live heatmap of d2d and d2c flows in real-time and in Zscore using Plotly and q/kdb+.
· Developed bonds and bills excel dashboard to help core trader identify trading opportunities (Basis, Cost of Carry, Z-Score Spread Zspread).

Banque de France - Financial Stability Department May 2022 - Aug 2022
Data Analyst - Intern *Paris, France*
· Developed and automatized a financial risk analysis dashboard using Python.
